

SERVOL FORRES PARK

AUTOBODY REPAIRS

Instructor: Russell Joseph

Term Work (28/09/2020 – 12/10/2020)

ALL TRAINEES

Review

1. Should dishwashing liquid be used on the exterior of an automobile when washing?
2. How many coats of clear should be applied to a base coat?
3. To get an excellent paint job 70% of the work requires good surface preparation. The other 30% requires what?
4. Rust can be removed from your car using what methods? (See video by typing in “How to remove rust from your car”)
5. See video How to paint a car step by step. (Go to Google or YouTube and type in the information)

Note: Videos may come in a series. Please look at all to widen your knowledge.
